2G/3G/4G Bracket Mount Antenna

14/04/2015 v3

- Cost effective 4G/3G/2G omni-directional antenna
- Wall or Mast Mounting
- Simple installation

This high-gain antenna is a cost effective omni-directional broad band antenna for 4G/3G/2G devices and is suitable for external or internal installation.

The design of the mounting bracket enables simple wall mounting using the supplied screws and wall plugs or mast mounting using a pipe clip or cable ties (not supplied).

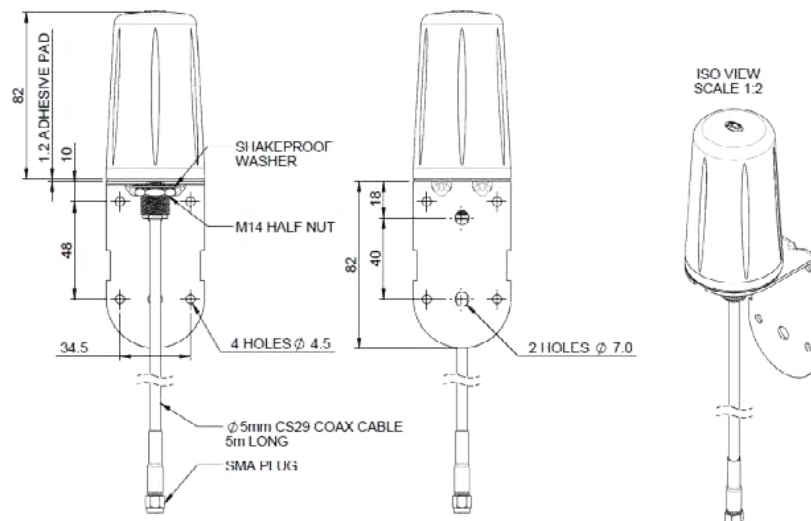

The omni-directional radiation pattern allows easy placement of the antenna in an elevated position.

This antenna is an ideal solution for use in industrial and domestic environments with cellular modems/routers and Machine to Machine (M2M) wireless connectivity applications.
